

What is Family?

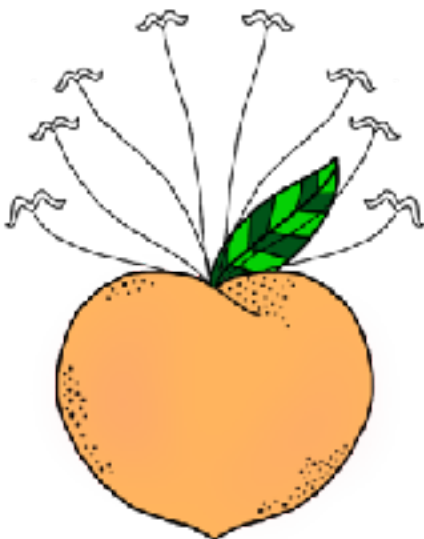

James and the Giant Peach Family Activity

After using the discussion guide to discuss what makes a family and how the insects and James become an unlikely family, use these pages to create your own family in a peach!

Cut out the characters.

For each character discuss something about them or something they do that shows they are part of the family (i.e. Ladybug encourages James when he is sad).

Write this on the character, color them (optional), and attach the character to the peach.

Then, have each family member draw themselves and write something about them or something they do that shows they are a part of your family. Add yourselves to the peach as well!

Ladybug

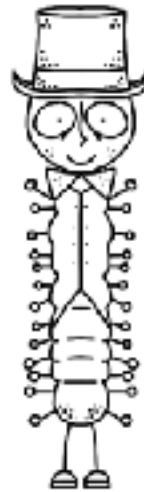

James

Grasshopper

Glowworm

Centipede

Spider

Earthworm
